# OrderNStock

## Total Inventory Control.

OrderNStock allows you to order your signage, gift cards, hardware, and other items from our fulfillment warehouse. You can search for items and access updated quantity and stock totals. Our system provides online kitting so you can group multiple items together, specify wrap quantities, and designate shipping locations.

## Administration Made Simple.

You have access to real-time quantities and reorder information, allowing complete inventory control. You can also limit which users can order which items, and approve or deny all incoming orders.

## Relevant Reporting.

You'll also have access to updated, customized reports so you can effectively manage inventory. Customized daily reports are emailed to you, ensuring you're up to speed on crucial information. You can also track UPS and FedEx shipments with real time tracking information and links to carrier sites.
